

Wajahat Gul
Data Scientist — ML Engineer — Python Developer

Islamabad, Pakistan
in linkedin.com/in/wajahatgul98 · +92 318 5419281 · wajahatgul2793@gmail.com
PROFESSIONAL SUMMARY

Data Scientist and ML Engineer with hands-on experience building predictive models, data pipelines, and intelligent automation systems. Skilled in exploratory data analysis, feature engineering, and deploying end-to-end ML solutions using Python, Scikit-learn, and Pandas. Proven track record of extracting actionable insights from data and integrating ML models into real-world applications.
EDUCATION

Bahria University	Islamabad, Pakistan
Bachelor of Science in Computer Science	Dec 2022 – Dec 2026
F.G. Degree College for Men	Wah Cantt, Pakistan
Intermediate, Pre-Engineering	Aug 2020 – Aug 2022

Data Analyst Intern	Dec 2025 – Jan 2026
Excelerate (Remote)	Dubai, UAE
- Led a team as group leader, coordinating tasks and collaboration across members via Google Chat for a remote data analytics project - Performed end-to-end data preprocessing, cleaning, and transformation on Excel datasets, ensuring data quality for downstream analysis - Conducted exploratory data analysis and feature engineering to extract meaningful insights, and built visualizations to communicate findings effectively	
AI/Automation Intern	Jul 2024 – Sep 2024
Y&M TechWorks	Punjab, Pakistan
- Developed and optimized Python data pipelines and automation workflows, reducing manual processing time by over 60% across multiple client operations - Applied ML models for predictive analysis and built RAG chatbots with LLM integration, improving customer query resolution efficiency - Automated business reporting workflows using Pandas and n8n, eliminating manual errors and saving significant operational hours weekly	
Competitive Team Member	Jan 2025 – Mar 2026
YOTA – Youth Organization for Technical Advancement	Islamabad, Pakistan
Conducted hands-on workshops on data analytics and Python libraries, and competed in multiple coding competitions alongside junior mentoring	

SKILLS & TOOLS	
Languages & Backend: Python, SQL, C++, JavaScript, Django, FastAPI, REST APIs	
Data Science & ML: Machine Learning, Predictive Modeling, Feature Engineering, EDA, NLP, RAG Pipelines, Scikit-learn, TensorFlow, LangChain, OpenAI API, Vector Databases (ChromaDB)	
Tools & Libraries: Pandas, NumPy, Matplotlib, Seaborn, Jupyter, Git, GitHub, Docker, Excel, Power BI	
PROJECTS	GitHub: github.com/WajahatGul

PSL Cricket Prediction System	Semester Project
- Developed a Django ML web app predicting match outcomes, batsman runs, and bowler wickets using Scikit-learn models trained on historical PSL data - Engineered 50+ cricket-specific features via feature engineering and data analysis, achieving strong predictive accuracy across all three models	
House Price Predictor	Y&M TechWorks
- Built a Django web app predicting house prices using regression models, Scikit-learn, and Joblib with a clean real-time interface featuring PKR conversions - Implemented full data preprocessing, model training, and evaluation pipeline to ensure reliable predictions across diverse property inputs	
ResearchSense – AI Research Publications Dashboard	FYP
- Architected an end-to-end RAG pipeline with LLM and vector search to enable semantic Q&A over large collections of research publications - Implemented advanced PDF chunking, embedding generation, and vector retrieval using ChromaDB and Groq API for low-latency inference	
RAG Chatbot Integrated with WhatsApp	Y&M TechWorks
Designed automated n8n workflows connecting OpenAI API, vector search, and WhatsApp Business API to resolve real estate client queries without human intervention	

CERTIFICATIONS
Skill Up with Python: Data Science & ML – LinkedIn (Jul 2025) · Supervised ML: Regression & Classification – DeepLearning.AI (Jun 2025) · Python & Django – Udemy (Mar 2025)
